

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

***Erica* × *darleyensis* ‘Michael Sellers’**

has been registered by

BARRY SELLERS
Norbury, England.

REGISTRAR

DATE 29 August 2016

on behalf of The Heather Society

Its characteristics at the time of registration were

Flowers January–April (–May): corolla magenta (H14), 6mm long x 3mm diameter;
calyx magenta (H14), 4mm long; anthers brown.

Foliage: mid to dark green; young growth cream.

Habit: vigorous plant, spreading to 0.6m, to 0.4m tall, after 10 years (not pruned).

Similar to ‘Kramers Rote’ but with brighter flowers and cream new growth.

Origins: Seedling (EES 77-1) raised in 1977 and selected in 1979 by Barry Sellers from among seedlings of *E. erigena* ‘Superba’ that had been deliberately cross-pollinated; pollen parent not recorded but probably *E. carnea* ‘Myretoun Ruby’.

Named by Barry Sellers after his late father.

Cultivar registration number: E.2016:03
