

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

Calluna vulgaris 'Annes Zwerg'

— named after Anne Biermann —

has been registered by

KURT KRAMER
Edeweicht, Germany.

REGISTRAR _____ DATE _____
on behalf of The Heather Society

Its characteristics at the time of registration were

Blütentyp normal; Blütenkrone violett; Kelchs violett; Juli–August.
Blattfarbe dunkelgrün.

Wuchs kriechend, schwächer als 'Heidezwerg';
Höhe nach 3 Jahren in 15 cm; Durchmesser in 25 cm.

Similar to 'Heidezwerg' in habit but grows more slowly and is more compact.
Origins: Wild-collected; found by Anne Biermann (Edeweicht, Germany)
about 1995 near Meppen, Emsland, north-west Germany.

Der Heidegarten 50: 11 (2001).

Cultivar registration number: C.2008:03
