

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

***Calluna vulgaris* ‘Golden Angie’**

has been registered by

JOHANNES VAN LEUVEN
Geldern, Germany.

REGISTRAR _____ DATE _____
on behalf of The Heather Society

Its characteristics at the time of registration were

Bud-flowering (Knospenblüher): corolla and calyx red (“mittelrot”); September–December.

Foliage: golden yellow.

Habit: bushy, upright, to 50cm tall, 50cm broad in 5 years.

Origins: sport on ‘Moulin Rouge’ found at Geldern by Johannes van Leuven
in September 2008.

“Goldgelbe Mutation aus ‘Moulin Rouge’, aufrechter als ‘Tessa’, sonst farblich ähnlich.”

Cultivar registration number: C.2010:07
