

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

***Calluna vulgaris* ‘Pink Bettina’**

has been registered by

JOHANNES VAN LEUVEN
Geldern, Germany.

REGISTRAR _____ DATE _____
on behalf of The Heather Society

Its characteristics at the time of registration were

Bud-flowering (Knospenblüher) with long flowering spikes:
corolla and calyx pink; September–December.

Foliage: grey-green (grün-grau).

Habit: very robust, upright, to 60cm tall, 50cm broad in 5 years.

Origins: sport on ‘Bettina’ found at Geldern by Johannes van Leuven.

“Aufrechter und längere Blüentriebe als bei ‘Pink Madonna’, robust, wüchsig.”

Cultivar registration number: C.2010:09
