

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

Calluna vulgaris 'Lilli'

has been registered by

KURT KRAMER
Edeweicht, Germany.

REGISTRAR _____ DATE _____
on behalf of The Heather Society

Its characteristics at the time of registration were

Flowers: H5 (ruby), bud-flowering (Knospenblüher); buds 5mm long, to 2mm diameter;
July–September.

Foliage: dark green.

Habit: upright, after 3 years to 30cm tall × 25cm across (pruned).

Origins: sport on 'Loki', found by Johannes van Leuven, Geldern-Lüllingen,
in autumn 2007.

Buds show colour three weeks earlier than 'Athene' or 'Amethyst'.

Cultivar registration number: C.2011:04
