

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

Calluna vulgaris 'Marcelita'

— named by the finder's wife —

has been registered by

H. J. KUIPERS
Nijensleek, Holland.

REGISTRAR _____ DATE _____
on behalf of The Heather Society

Its characteristics at the time of registration were

Flowers double: magenta (H14), 6mm long, 6mm across; late August–mid-October.

Foliage: green; new growth green.

Habit: upright, 60cm tall after 3 year (pruned); 30cm across after 3 years (pruned).

Origins: sport on 'Annemarie', found in August 2006 by H. J. Kuipers in his nursery.
Flowers darker than 'Annemarie' and habit more erect.

Cultivar registration number: C.2011:09
