

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

Calluna vulgaris 'Mary Lu'

has been registered by

KURT KRAMER
Edeweicht, Germany.

REGISTRAR _____ DATE _____
on behalf of The Heather Society

Its characteristics at the time of registration were

White, bud-flowering (Knospenblüher); buds 5mm long, to 2mm diameter;
August–December.

Foliage: light green.

Habit: upright, after 3 years to 30cm tall × 25cm across (pruned).

Origins: deliberately raised cross by Kurt Kramer, made in 2007 between unnamed seedlings
(pollen parent 06-85-1, seed parent 06-85-2), selected for naming in 2008.

Has bigger buds than 'Madonna' and is more resistant against fungi.

Cultivar registration number: C.2013:06
