

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

***Erica carnea* ‘Ryan’**

— named after Ryan Doveren —

has been registered by

JOS FLECKEN
Kerkrade, Netherlands.

REGISTRAR _____ DATE _____
on behalf of The Heather Society

Its characteristics at the time of registration were

Flowers magenta (H14), lighter at start of flowering in January;
calyx heliotrope (H12): January–May.

Foliage greenish gold, in spring and early summer with striking orange/red young shoots.

Habit spreading, compact: after 3 years 15cm high, 30cm broad.

Origins: chance seedling in Jos Flecken’s garden found in 2004;

differs from other cultivars in compact habit, leaf colour, and especially young shoots.

Named by Jos Flecken after his grandson.

Cultivar registration number: E.2008:07
