

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

***Erica carnea* ‘Sally’**

– after Sally Edge –

has been registered by

DAVID EDGE

Forest Edge Nurseries, Wimborne, Dorset.

REGISTRAR

DATE **7 December 2016**

on behalf of The Heather Society

Its characteristics at the time of registration were

Flowers single, small, crowded on shoot tips in dense spike; corolla *c.* 5mm long, rose pink (H7); calyx paler, lobes to 2.5mm long; anthers dark; January–April.
Foliage “lemon yellow” throughout the year (RHSCC 145A Yellow-green group: plant from shade-house in December); leaves to 10mm long.

Compact shrub to 15cm tall, 25 cm across in 3 years (not pruned).

Origins: sport on ‘Saskia’ found by David Edge in 2015 at Forest Edge Nurseries.

Named by David Edge after his daughter-in-law, mother of Saskia.

Cultivar registration number: E.2016:04
